

GJL EXCAVATION PTY LTD

CAPABILITY STATEMENT

www.gjlexcavations.com.au

Our Company

GJL Excavation Pty Ltd, based in Mudgee, delivers expert earthmoving and excavation services with a focus on precision and efficiency. With a personalised approach to every project, we deliver tailored solutions that reflect an in-depth understanding of the local landscape and community needs. We specialise in site preparation, land clearing, drainage solutions, trenching, dam construction and underground fibre cables and back filling. Our recent work at the WOLLAR SOLAR FARM, showcase our ability to handle large-scale, complex assignments.

Leveraging advanced equipment and our experienced team, GJL Excavation provides tailored solutions that meet the highest standards, making us a trusted partner in the earthmoving industry. We take great pride in our commitment to both environmental sustainability and community support. We ensure that our machinery is regularly serviced and meticulously maintained to the highest standards, optimising efficiency while minimising emissions and wear.

Services

Our expertise spans a broad spectrum of services, ensuring that we meet and exceed client expectations.

- **Site Preparation and Land Clearing:** Meticulous and efficient groundwork that lays the foundation for successful project execution.
- **Drainage Solutions:** Advanced techniques to manage water flow effectively and prevent future complications.
- **Trenching:** Precision trenching for utilities and infrastructure development.
- **Dam Construction:** Robust and reliable water storage solutions designed to withstand environmental challenges.

Our ongoing work at the Wollar Solar Farm exemplifies our ability to manage large-scale and intricate tasks, demonstrating proficiency in handling diverse and challenging environments.

This includes:

- **Backfilling Underground Fibre Cables:** Ensuring durability and reliability in utility installations as part of the Wollar Solar Farm project.

Past projects also include:

- **High Rail Work:** Showcasing flexibility and adherence to strict safety and operational standards.

Our Values

At GJL Excavation, we prioritise client satisfaction and transparency throughout all project phases. Our commitment is reflected in:

- High-Quality Machinery: Our fleet ranges from 4-14 tonne, providing versatility and precision for various project requirements.
- Strong In-House Relationships: A cohesive team environment fosters efficiency, trust, and outstanding outcomes.
- Comprehensive Site Maintenance: Ensuring the longevity and success of completed projects.
- Open Communication: Keeping clients informed and engaged at every stage of the process.
- Continuous Improvement: Expanding our expertise and capabilities to better serve Mudgee and beyond.

Environmental Sustainability

Our operations are guided by a strong sense of responsibility toward environmental sustainability. We take proactive measures to minimize our environmental footprint by:

- Regularly servicing and maintaining machinery to the highest standards, optimizing efficiency while reducing emissions and wear.
- Employing best practices to ensure minimal impact on the local ecosystem.

These efforts not only enhance the longevity of our equipment but also demonstrate our commitment to protecting the environment for future generations.

WHY CHOOSE GJL EXCAVATION?

GJL Excavation Pty Ltd stands out for our dedication to:

Delivering high-quality, customised solutions tailored to project-specific needs.

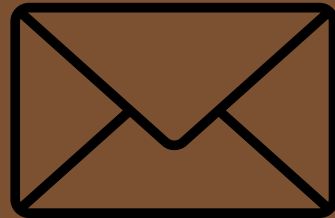

Maintaining a reputation for quality work and finishes, punctuality, and easy communication.

Upholding the highest standards of environmental and operational efficiency.

Supporting the local community through meaningful initiatives.

With a proven track record and a forward-looking approach, GJL Excavation is ready to take on new challenges, providing exceptional service and results for property managers and developers alike.
